Satino Promotional Display For Cardboard Dispensers

333100

PT2 compatible

PRODUCT DESCRIPTION

Set up, fold open the signboard, and done: The promotional display for the POS makes it possible to place the pallet for the cardboard dispensers made of corrugated cardboard conspicuously in the shop: in cash & carry markets, retail, DIY stores and specialist hygiene retailers with shops. This means that the cardboard dispensers, as hygienic take-away articles, get to where they are needed even faster – to end users in private households, at sports festivals, company events or event locations.
