HYGINITY.
The future of hygiene is curved.

Ease of use.
Aesthetic in design.

Design meets top performance and utmost user-friendliness: The HYGINITY dispenser series sets new standards in terms of functionality – and is the sustainable solution for the highest hygiene standards*. The HYGINITY dispensers are available in black and white for a suitable washroom ambience.

Innovation with a customer focus

Developed by leading designers and microbiologists, the HYGINITY dispenser series sets new standards in the hygiene industry and puts people at the centre. It stands for revolutionary simplicity and cleanliness, benefiting everyone – from wholesalers and service staff to decision-makers and end-users.

For sustainable washroom solutions

From private offices to large public facilities – the HYGINITY dispenser series prioritises sustainability for every requirement. A high proportion of recycled ABS and recyclability are just as important as usage down to the last sheet.
